The Late Life & Decommissioning SIG - Value to Industry Award Application Form

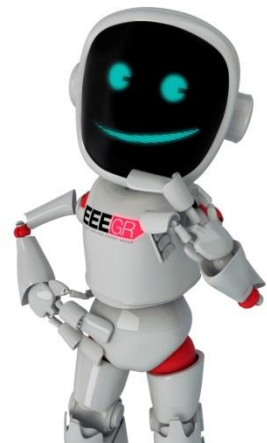

Please read the general terms of reference, and the additional Best Energy Project Award specific terms of reference below before completing your application.

Criteria

All applications for this category must be of a noteworthy product, project or service specifically designed for the energy sector or supply chain. This can be in energy production, or a new product or service which demonstrates significant benefit to the energy industry.

Selection Process

Entries must be submitted by close of play, Friday 18 August 2017. The shortlisted finalists will be notified by Tuesday, 29 August 2017 and all applicants must be available to present on the afternoon of 14 September 2017 at the EEEGR Awards

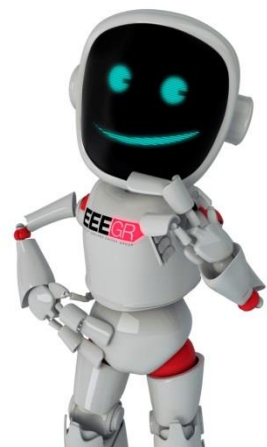

Judging the EEEGR Awards

The judging panel will be made up from key individuals from industry and academia who will challenge and engage with the presenters. The judges will not have a complex set of criteria to judge against, due to the diverse make-up of the panel and range of entries anticipated.

Entry Deadline: Friday 18 August 2017. Please submit all applications to

Siofra Driver (siofra.driver@eeegr.com). Ensuring you are available to present on 14 September.
