## Opportunities with Sinopec

**Do your services match the needs of Sinopec supply chain requirements**

Join the EIC as they put the supply chain in touch with one of the world's largest integrated companies in energy and chemicals. EIC is holding a UK Roadshow - Opportunities with Sinopec, in London on Tuesday 16 and Aberdeen on Wednesday 17 October.

This event will give you and your organisation the opportunity to find out more about Sinopec, the projects that they are currently working on, how to do business with them and more importantly how to expand your business opportunities in China with the support of its e-commerce platform Epec.com.

Sinopec have also provided a list of services and equipment they are looking for from the supply chain that they hope to introduce to Epec.com.

### Event details
